

Technical Bulletin

Subject: CP-XM EZ Control Panel	Date: 11/22/2011	Issue: 11-10
	Issued By: C. Bruce	Page(s): 1 of 1

The part number for the CP-XM G1/8 control panel has been renamed to CP-XM EZ. This part number defines the CP-XM control panel with a 4114973-G1/8 straight fitting to connect to EZ Hose (CNOMO style) systems.

The control panel is shipped with the fitting installed as shown below.

The CP-XM EZ control panel offers seamless integration into EZ Hose systems. The 4114973-G1/8 fitting connects to all EZ Hose fittings without the use of additional fittings or adapters.

Additionally, CP-XM control panels can be identified by the 7500 psi pressure gauge, SAE -4 port plug, and a centered G1/8 port on the bottom edge.
