Hydraulic TILT-TOP

ADJUSTABLE STRIP STOCK HANDLERS (foot operated)

MOST STANDARD DESIGNS ARE ALSO AVAILABLE IN ELECTRIC-HYDRAULIC AND AIR-OPERATED VERSIONS

1000 OR 2000 LB. CAPACITY

Tilt-Top Lift Table

- Speeds moving, handling, and feeding of strip and bar stock to punch presses, shears, press brakes, screw machines, other equipment.
- One-person operation — One person can adjust angle (empty) or raise and lower with full load.
- Adjustable — Top adjusts from horizontal to 30 degree angle to suit inclinable punch presses.
- Lift 17", minimum height, 31"; maximum height, 48".
- Top: 10 ga. steel with 5-3/4" high back flange.
- Base: 1/4" steel — 30" x 63-1/2".
- Guides: Triple-telescoping guide cylinders add greater stability at maximum lift and add years of extra wear.
- (2) Floor locks to anchor in position.
- (4) Swivel 5" dia. steel casters with roller bearing (composition or polyurethane wheels optional)

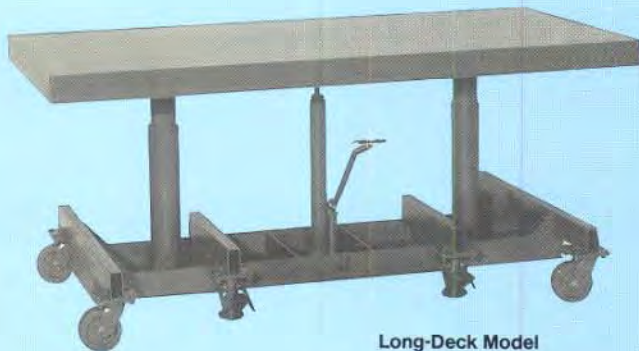

SPECIFICATIONS

MODEL NO.	LOAD CAPACITY	LENGTH OF TOP (20" Wide)	SHIP. WT.
