

Transporter Motion Sensor

*Automatically shuts down
production line machinery
(within 6 seconds)
whenever air pressure
is interrupted.*

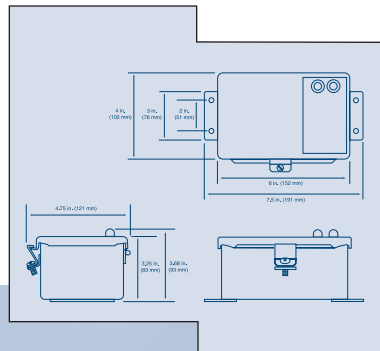

Designed to control Vibro's Model 250, 320, 450 and 850 Air-Operated Transporter Conveying System, the Transporter Motion Sensor automatically shuts down production line machinery (within 6 seconds) whenever air pressure to the conveying system is interrupted, protecting equipment and valuable material.

Specifications

	Motion Sensor
Width	4 in. (102 mm)
Length	6 in. (152 mm)
Height	3.25 in. (82 mm)
Max. Weight	2 lbs. (.9 kgs)

Vibro Features Include:

- Now available for half the price of previous models
- Simple Operation
- Rugged Construction
- Available from Stock
- 100% American Made

*Employing the latest in
pneumatic control technology
and electronic circuitry*
