

METCHEM 6290
Bio-stable
Machining & Grinding Coolant

Product Line

Metalloid Corporation manufactures a complete line of industrial metal working fluids and cleaners. Metalloid's product line includes but is not limited to Machining and Grinding Coolants, Stamping and Forming Fluids, EDM Fluids, Corrosion Inhibitors, Swiss Cutting Oils and Aqueous Cleaners.

Product Description

METCHEM 6290 is a *bio-stable* synthetic machining and grinding coolant for mixed metals. **METCHEM 6290** is a unique blend of corrosion inhibitors, surfactants and anti-wear agents. This coolant provides exceptional fine settling, rust protection and detergency to most metals. **METCHEM 6290** can be used in individual sumps and central systems. **METCHEM 6290** does not contain petroleum oil, chlorine or sulfur.

Benefits

- Exceptional rust protection
- Excellent *bio-stable* rancidity control
- Virtually non-foaming
- Compatible with hard or soft water
- Does not leave tacky residue on grinding wheels
- High surface finishes
- Outstanding fine settling properties

Specifications

Specific Gravity @70 ^o F.....	1.062
Density, lbs. /gal. @ 70 ^o F.....	8.84 #/gallon
pH @ 1:10.....	8.5
Appearance.....	Clear Amber Liquid

The Metalloid Partnership Advantage

Packaging

METCHEM 6290 is available in 5-Gallon Pails, 55-Gallon Drums or 330-Gallon Totes.

We believe the statements, technical information and recommendations contained herein are reliable, but they are given without warranty or guarantee of any kind, expressed or implied, and we assume no responsibility for loss, damage, or expense, direct or consequential, arising out of their use.

No one understands metalworking fluids better than Metalloid, so no one else can bring you advanced technology that works on the issues that matter to you.
