

CLEVELAND STEEL TOOL

Porta-Punch

35 Ton Portable Hydraulic Punching Machine

Punch up to 13/16" round and 9/16" square holes in 1/2" thick mild steel on the spot.

Only The Cleveland Steel Tool Company has the quickest, easiest way to make round and shaped holes in mild steel up to 1/2" thick. Our 35-ton portable hydraulic punching unit weighs just 31 lbs., is easy to use and allows you to punch right on the job site.

The C-frame is forged, not cast, for greater durability and strength. The dual-action stripper holds the material being punched and then strips the material from the punch so you're ready to punch the next hole.

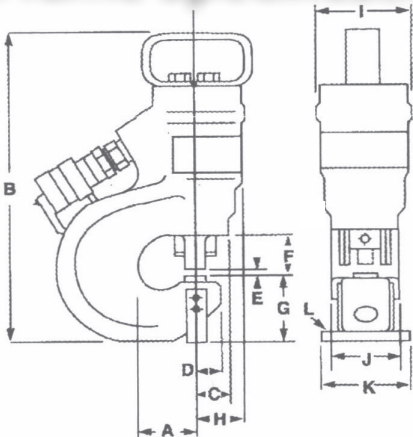

Features

- Operates from any 10,000 psi hydraulic source (electric hydraulic pump available from Cleveland Steel Tool).
- Metal carrying case included for easy portability.
- Punches round, oblong, square, hex and rectangular holes.
- Shaped punches and dies available in 24 hours.
- Easily mounts to a workbench for production jobs.
- 3/8" female coupler attached for quick disconnect.
- One year warranty against manufacturing defects.
